Letter of Recommendation — Alexandre Gossard

To Whom It May Concern,

It is my pleasure to recommend **Alexandre Gossard**, who worked with us at **BRAVALTA** and **Kabila** for four years as a Full-Stack Developer specialized in Front-End. Throughout that time, Alex established himself as a key member of our engineering team and a trusted contributor on the most demanding projects we took on.

Although his core expertise is on the Front-End, Alex consistently went well beyond his specialty. He worked across the stack and contributed meaningfully in areas such as blockchain development, Hedera, databases, and application security. His technical level is high, and what stands out even more is the speed at which he learns new technologies and the genuine curiosity that drives him to stay current with the ecosystem.

Alex played a fundamental role in the development of more than twenty blockchain products at BRAVALTA. He is proactive, resourceful, and particularly strong at breaking down and solving large, ambiguous problems. He combines strong individual ownership with excellent teamwork: he communicates clearly, supports his colleagues, and consistently raises the quality bar of the work around him.

Beyond his technical ability, Alex brings something that is often harder to find — a positive attitude, real energy, and a reliable willingness to step up when things get difficult. He is the kind of engineer you want in the room when the problem is hard and the deadline is tight.

I recommend Alex without reservation to any company facing significant software and software-architecture challenges. If you are looking for a young, highly capable engineer with great attitude, energy, a strong technical foundation, an ability to keep learning, and excellent teamwork, Alex will be a fundamental piece of your team.

Please feel free to contact me directly should you require any further information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Manu', followed by a horizontal line and a period.

Manu Cabrera

CEO & Co-Founder, BRAVALTA & Kabila
